

Design Workshop

Work in pairs. You are designers who design unusual living spaces. A friend has bought the studio in the picture and wants you to create a bedroom-living space in it. There is no limit to the amount of money you can spend! Discuss what you will put in the room. Use your imagination!

- A:** OK. He needs a living area, a sleeping area, a kitchen, and a bathroom.
- B:** Let's build the bathroom over here. It ought to have a Jacuzzi tub.
- A:** Good idea. A Jacuzzi, a small shower, a sink, and a toilet. Those should be white, I think, and let's paint the bathroom walls red.
- B:** Sure. Now the kitchen. We can separate the kitchen from the living area with a long bar.
- A:** The kitchen needs lots of cabinets to put away food and dishes. We want the house to be organized.

Star Interview

Work in pairs. Think of a music star you would like to interview and write at least five questions to ask him/her. Use the ideas below or your own ideas. Then imagine how the star would answer your questions.

- Childhood
- House
- Opinions about music
- Personal life
- Career
- Favorite or unusual gifts

In your pairs, decide who is going to be the interviewer and who is going to be the music star. Practice the interview. Then act it out for another pair or the rest of the class.

- A:** Good afternoon. I'm [name], and today I'm interviewing [name]. Thank you for talking to me, [name].
- B:** You're welcome.
- A:** My first question is ...

SCORE YOURSELF!

Score 1-5 for the items below. Score 5 for things that are easy and 1 for things that are difficult.

I can give opinions about different types of music.	5	4	3	2	1
I can give advice and suggestions.	5	4	3	2	1
I can talk about living spaces.	5	4	3	2	1
I can talk about experiences I or other people have had.	5	4	3	2	1

If you give yourself 1 or 2 for any of the statements, look at the material in Units 5 and 6 again.
